

EMPOWERING 2 EMPOWER

Erasmus + KA1 project – Mobility for youth workers

(SLO)

Mednarodni projekt "Empowering 2 empower" je namenjen opolnomočenju mladinskih delavcev / voditeljev za delo z mladimi brezposelnimi in mladimi iz ruralnih območij. Haloze so manj razvito območje s pomanjkanjem priložnosti za mlade in pomanjkanjem delovnih mest in kulturnih dejavnosti za mlade, ki živijo tu. Lokacija izobraževanja bo omogočila boljše razumevanje težav, s katerimi se soočajo mladi, ki živijo v teh območjih. Skozi izvedbo projekta nas bodo zanimali razlogi za brezposelnost mladih, kakšno je stanje (statistika) brezposelnosti mladih v drugih državah in kako se trudijo rešiti ta problem. Z izmenjavo izkušenj dobrih praks želimo to težavo v prihodnosti zmanjšati. Z delavnicami in različnimi metodami bomo udeležence spodbudili h kreativnosti, tako da bomo podali dodatne predloge za možnost učinkovitega reševanja brezposelnosti in pomanjkanja priložnosti med mladimi. Želimo, da se izkušnje, predlogi in pridobljene kompetence prenesejo v aktivno in učinkovito delo znotraj organizacij in zunaj njega v smislu nadaljnjega projektne sodelovanja med organizacijami na nacionalni in mednarodni ravni.

International project "EMPOWERING to EMPOWER" is dedicated to the empowerment of youth workers / leaders to work with unemployed young people and young people from disadvantaged areas. Location of training will enable higher understanding of identified problems that young people are facing by living in such areas. Through the implementation of the project we will be interested in specific issues and facts about the reasons for unemployment among young people, what is the state (statistics) of youth unemployment in the case of the participants countries where they come from and How they are trying to solve this problem there. By sharing experiences of good practices we want to reduce this problem in future. Through workshops and variety of different methods we will encourage participants to be creative by making additional proposals for the possibility of effective problem solving of unemployment and lack of opportunities among youth coming from problem areas with fewer opportunities. After all, we want, that experiences, proposals and gained competences are transferred to active and effective work within the organizations and beyond in terms of further project cooperations between organizations at the national and international levels.
