

IT IS ALL ABOUT COMMUNICATION AND DIALOGUE

ERASMUS+ , 2019, KA1 Training for youth workers

(SLO)

Še posebej v današnjih časih je zelo pomembno spodbujanje medkulturnih in medverskih dialogov ter odnosa strpnosti in empatije. Mladinski delavci imajo pri tem veliko vlogo, saj lahko pripomorejo k odnosu mladih do medsebojne komunikacije in rušenju stereotipov. Da bi njihovo delo bilo učinkovito, bi morali mladinski delavci imeti znanje in veščine o tem, kako poteka jasna komunikacija in komuniciranje brez nasilja, saj so lahko ta znanja izredno pomembna pri spodbujanju empatije do drugih ljudi in omogočajo medkulturni in medverski dialog. Na žalost mladinski delavci to pogosto počnejo intuitivno in le z znanjem, ki ga trenutno imajo. Cilji projekta so mladim delavcem omogočiti znanje o medkulturnem in medverskem dialogu, pa tudi znanje empatične in nenasilne komunikacije ter kako jo učinkovito uporabiti pri delu z mladimi. Želimo razvijati veščine mladih delavcev na področju: empatičnega poslušanja, izražanja čustev, potreb in zahtev, reševanja konfliktov s pomočjo komunikacije, prepoznavanja vzrokov kulturnega nerazumevanja / konfliktov in njihovega konstruktivnega reševanja.

Nowadays is very important to promote intercultural and interreligious dialogues, as well as attitude of tolerance and empathy. Youth workers have a great role to play in this matter, by shaping young people attitudes on how to communicate with each other, and go beyond stereotypes. In order to do it effectively, youth workers should have knowledge and skills on how emphatic communication and communication without violence, as those tools can be extremely important in promoting empathy towards other people and enable intercultural and interreligious dialogues. Unfortunately, youth workers often do it intuitively. This project aims to address the above described issues. Therefore, the objectives of the project are: i. to equip youth workers in knowledge regarding intercultural and interreligious dialogues, as well as empathetic and non-violent communication, and how to use it effectively within their work with youth to influence their attitudes; ii. to develop youth workers skills in the field of : empathic listening, expressing feelings, needs and requests, resolving conflicts through empathic communication, recognizing the causes of cultural misunderstanding/ conflicts and solving them constructively.
